

# Astribank™

## The Ultimate Telephony Interface for Asterisk

- USB channel bank for Asterisk
- Features both FXS and FXO
- Native Asterisk - no extra software required
- Built in echo-suppression for all FXO ports
- Input/Output ports for connecting peripheral devices

### Astribank-8

Whether running a small office PBX or a large industrial iPBX, Astribank-8 provides 8 FXS (analog extensions) plus input/output ports. It is easy to connect Astribank-8 to fax machines, analog conference phones and peripheral equipment.

### Astribank-16

This small size, powerful unit provides 16 analog ports in two models: 16 FXS, or 8 FXS + 8 FXO to give the ultimate solution for connecting to PSTN and analog extensions.

### Astribank-24/32

These Astribank models come in a 19" enclosure to fit standard communication racks. These modular models of Astribank come in various combinations of FXS and FXO ports.
